

ELECTRICAL ENGINEERING – ELECTRONIC EQUIPEMEENT

Type of training

- formal initial training (full time) (EQF <= 4)
- formal initial training (dual system / apprenticeship)
- Higher education and training (EQF >= 5 – 8)
- formal continuing education
- informal learning / training on the job

Training duration

Years: 2
 Hours (if relevant, i.e., VET courses):

Level of education required

- Secondary school/ Vocational qualification
- High school diploma
- Degree

Main content of the program (4-5 lines)

Upon successful completion of the study, you will become a qualified professional technician, able to independently perform work in various electrical and electronic activities. You will learn the procedures for the manufacture, installation, operation, maintenance and repair of electronic equipment and work with basic software designed for this activity.

Targeted public

Field of study is targeted on those who are enchanted by electrical engineering and its wide range of possibilities from its own production to electronics.

Pedagogical methods

- workshops
- conferences
- placement
- practical exercises
- distance learning

Evaluation process

- diploma
- certification
- attendance confirmation
- no evaluation

Further services/activities foreseen:

Practical laboratories	<input checked="" type="checkbox"/>	Validation of acquired experience (VAE)	<input type="checkbox"/>
Training internships	<input checked="" type="checkbox"/>	Other (spec. _____)	<input type="checkbox"/>
Job placement services	<input type="checkbox"/>	Other (spec. _____)	<input type="checkbox"/>

Organization

Name
 Type of organisation delivering the training course:
 University
 High school
 VET organization
 Other (specify.....)

Location

Bratislava, Slovak republic,

<https://dualnaakademia.sk/skola/vzdelavacie-odbory/elektrotechnika/>

And cities where in which the course is provided (regional level)

Bratislava, Trnava, Trenčín, Topolčany,
